PIPE LAYER:
ASI is looking for a qualified pipe layer in the Western NC region. This position involves preparing pipe installation, as well as confirmation the pipe is installed correctly. ASI would love to welcome you to our team!

Responsibilities:

- Self-motivated, reliable, punctual, alert
- Commitment to work safety
- Conduct tasks with integrity
- Efficient communication with crew members
- Inspect/troubleshoot any problems that occur
- Flexible

Duties:

- Inspect sites for hazards and ensure safety guidelines are in place
- Ensure/assist with all safety equipment, tools, and materials needed at the job
- Inspect all materials: gaskets, pipes, etc.
- Assist with location confirmations and any unmarked utilities
- Assist with laser and accepted grade
  Assist with trench safety
- Measure, cut, and installation of pipe
- Maintain punctual progress towards schedule

Requirements:

- 2 year pipe layer experience / 1 year general laborer
- Valid DL
- Pre drug/alcohol testing
- Flexible with work hours, traveling, and weather elements
- Neat appearance
- Strong work ethic
- Clear communication skills
- Compliance with company safety requirements
- Reliable transportation
- A pipe layer must be meticulous with installations. The ability to operate small tools is a requirement. Any ability to operate pipe lasers or assist with grades is a bonus to ASI.
- Desire to contribute as a team member
